The Benefits of Zimbra

For the End User

Choice of Client

Mailbox Management

Calendaring

Access Email Anywhere

For the System Admin

Admin Console

Monitoring tools

Storage Reduction

Built in Security Tools

Multiple Domain Support

Zimbra Collaboration Suite - ZCS

Zimbra Collaboration Suite from SOPAC Point of View

Why Zimbra?

Zimbra is based on Open Sourced software providing flexibility

Zimbra scales significantly better and with less hardware overhead

Multi-client support (Mac OS X & WindowsXP)

Flexibility of server platform deployment (RHEL, MacOS X, SuSE, Ubuntu etc)

Zimlets/SOAP/REST - ability to integrate with other systems

Searching - ever try searching a multi-gig mailbox in Outlook?

Attachment search/rendering

Integrated Spam/Anti-Virus that actually works well.

Zimbra Support - try getting the response time and quality of support from MS
that you can get from the Zimbra corporate team.

Zimbra is committed to the community and listens to us when we ask for features
definitely not the case with MICROSOFT

SOPAC

Thank you – Demo Time
